Program focus and technology focus

A comparable view of December 2025 proposals. Program activities and enabling technologies are separate dimensions; neither indicates implementation or performance.

PROGRAM / CARE-DELIVERY FOCUS

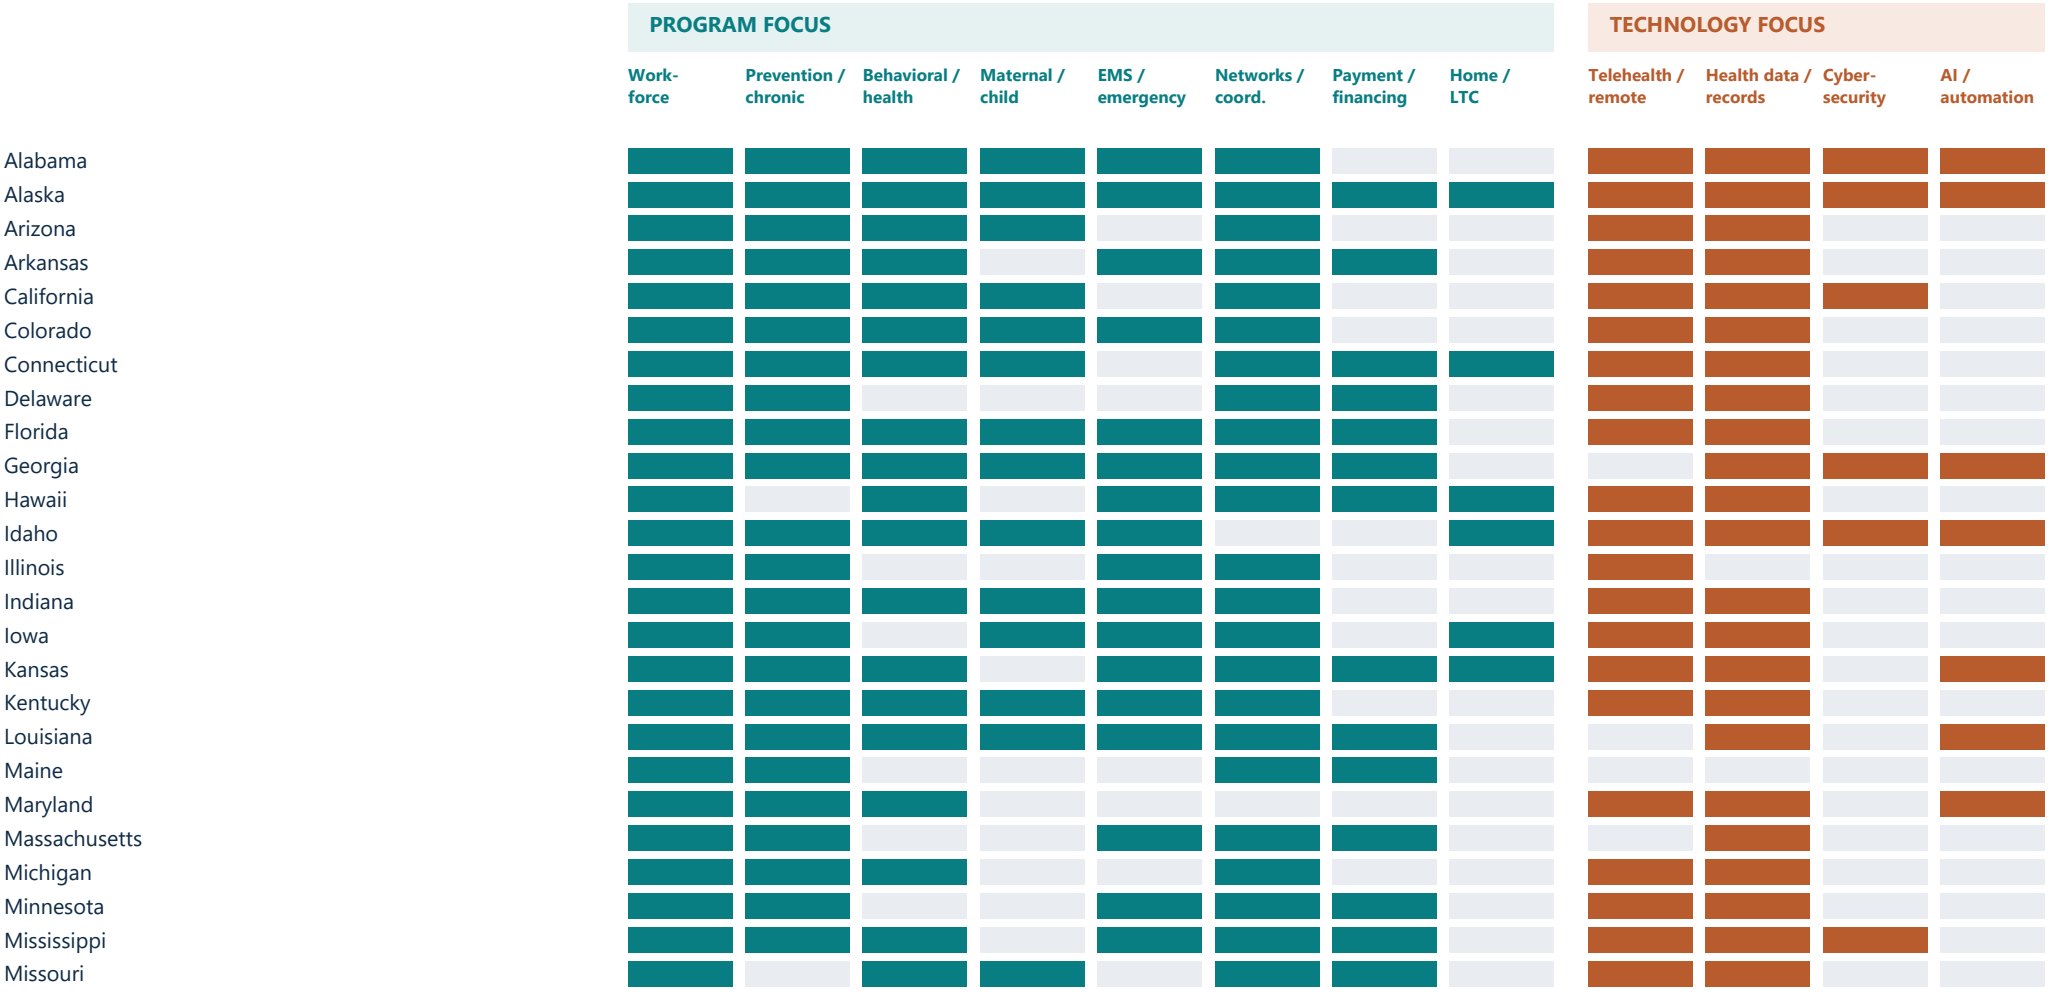

TECHNOLOGY FOCUS

Program focus Technology focus

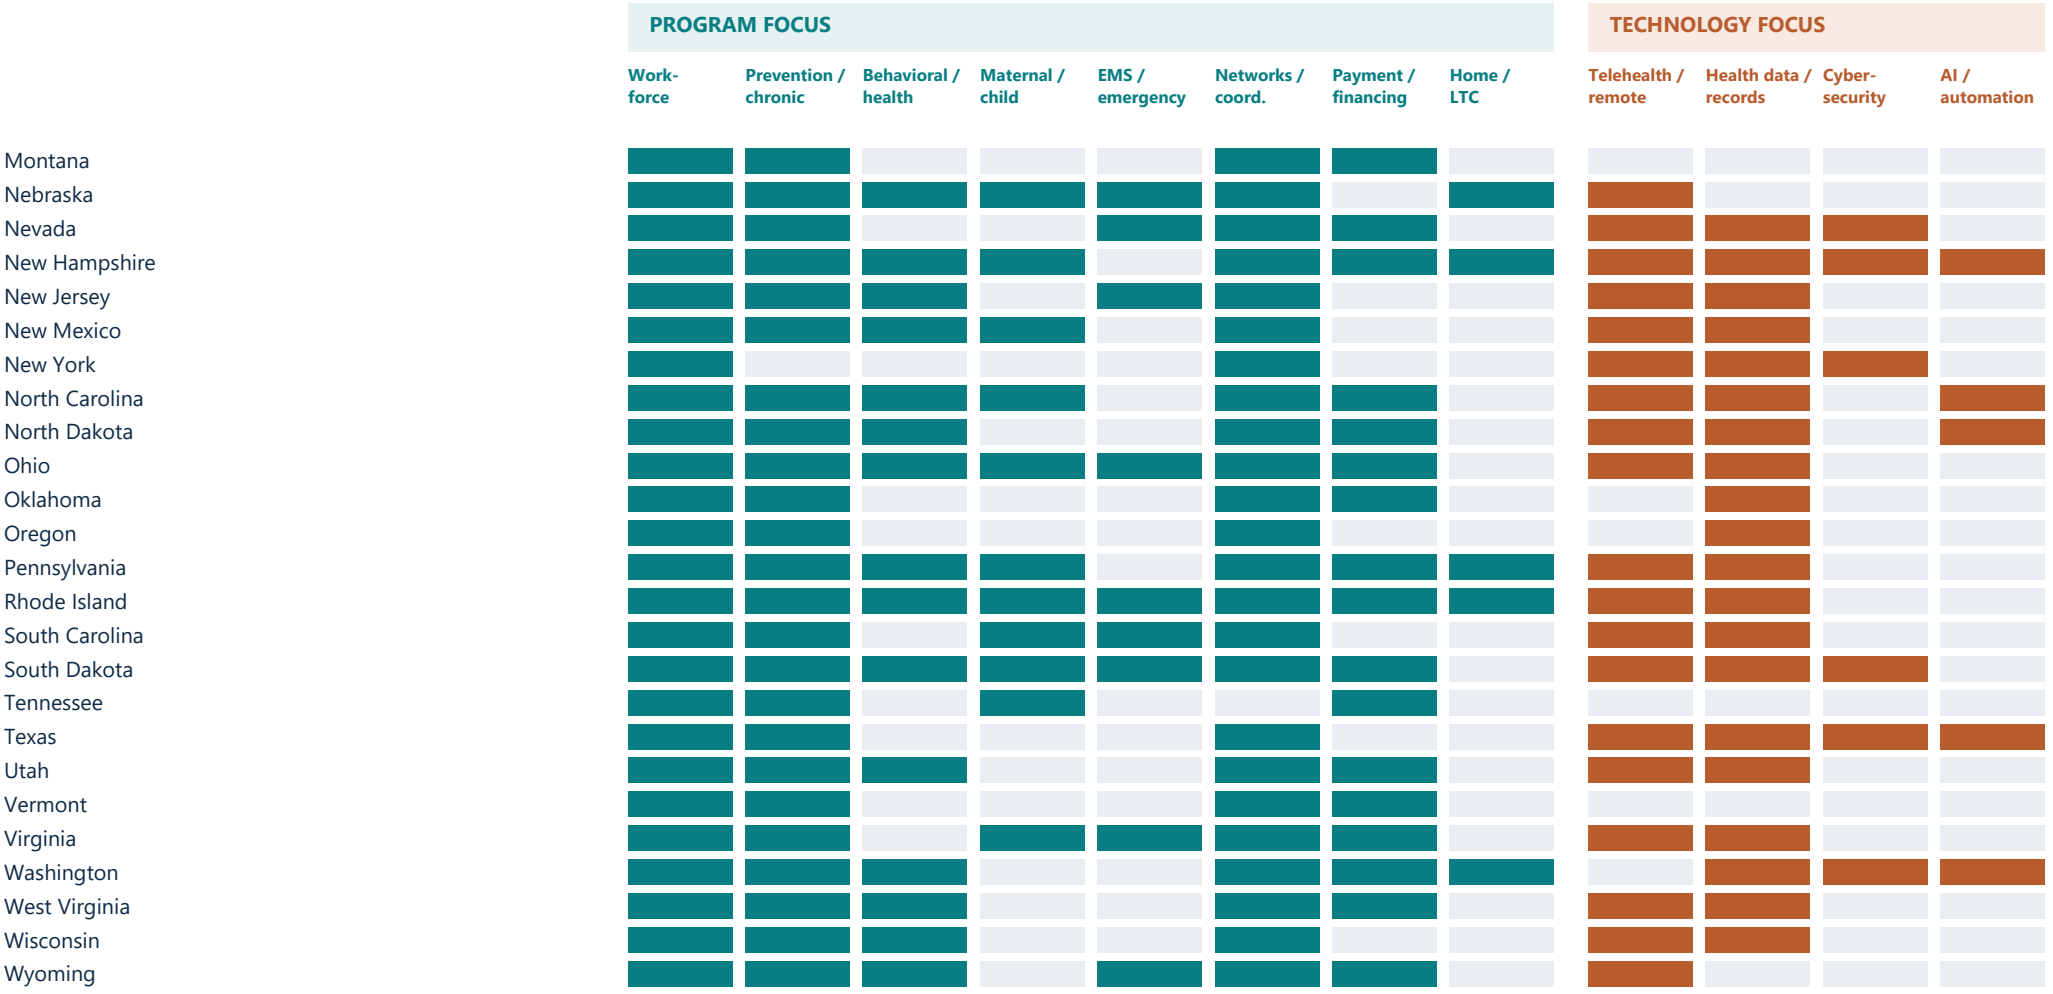

Coding rule: generic “technology,” “innovation,” or “modernization” language alone does not establish a named technology. Categories overlap.

Program and technology focus heat map

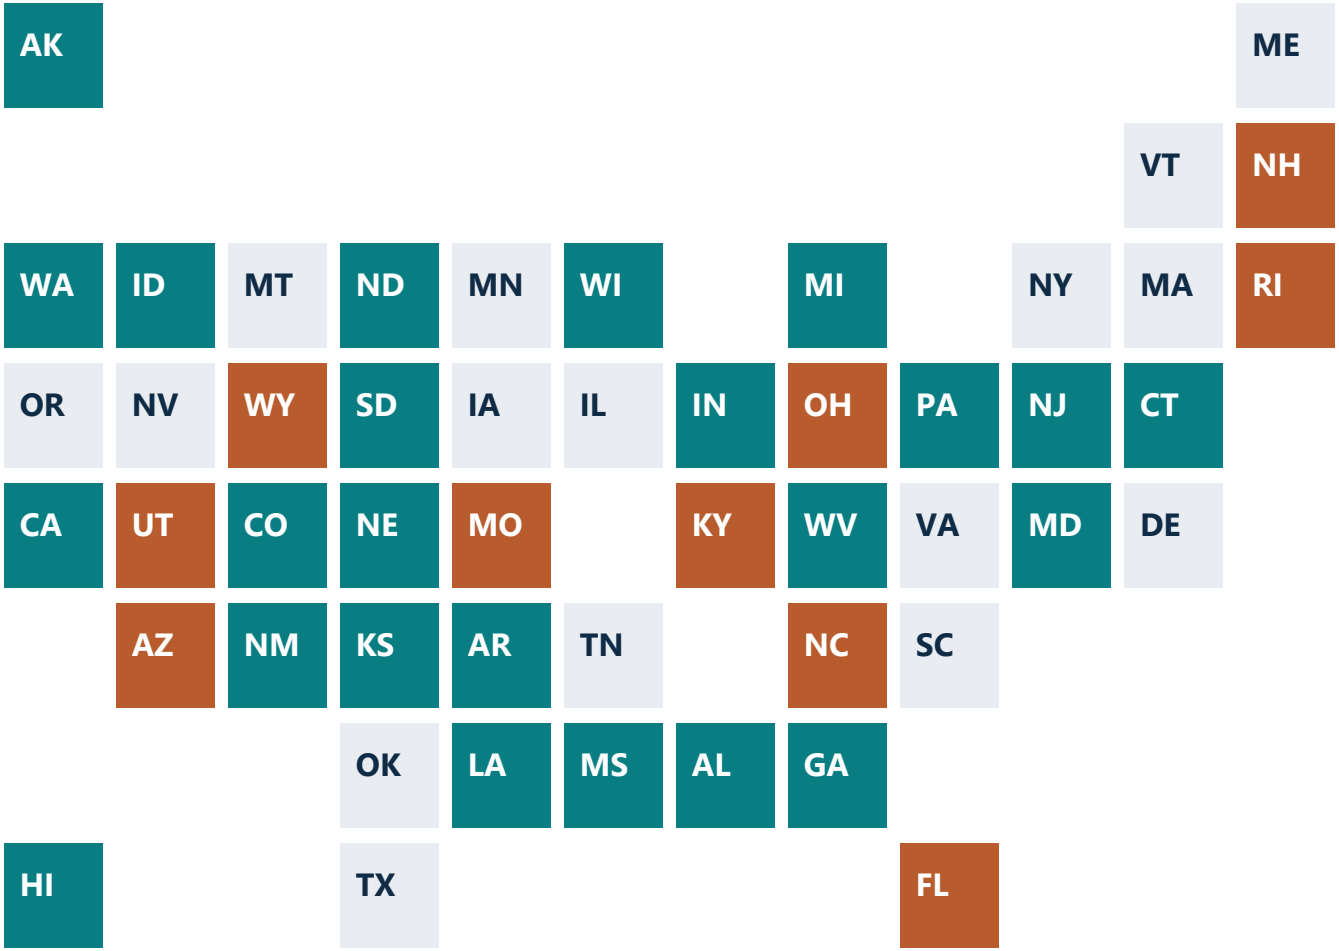

Program and technology columns are coded independently. Sharing a state row does not establish a link or implementation.

Program and technology focus heat map

Program and technology columns are coded independently. Sharing a state row does not establish a link or implementation.

Behavioral health + technology

10 states mention technology

24 other states mention behavioral health; no technology is mentioned for that care area.

LEGEND

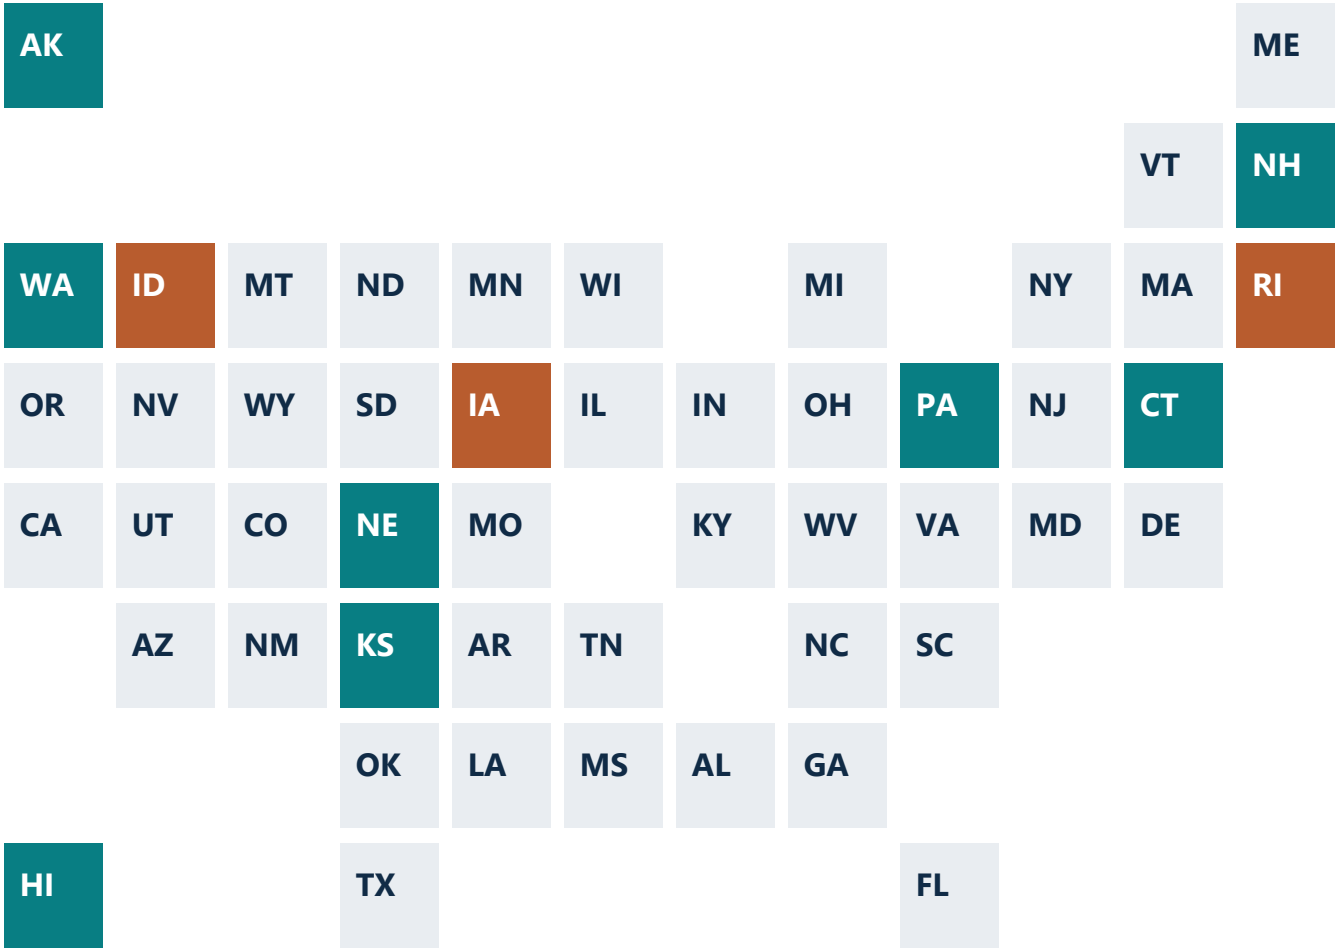

- Technology mentioned for this care area
- Care area mentioned; no technology mentioned
- Care area not mentioned in abstract

Technology mentioned: AZ, FL, KY, MO, NH, NC, OH, RI, UT, WY.

Source: December 2025 proposal abstracts.

Orange = technology mentioned for this care area. Teal = care area mentioned; no technology mentioned. Gray = care area not mentioned in abstract. Tile positions are approximate.

Home / long-term care + technology

3 states mention technology

8 other states mention home / long-term care; no technology is mentioned for that care area.

LEGEND

- Technology mentioned for this care area
- Care area mentioned; no technology mentioned
- Care area not mentioned in abstract

Technology mentioned: ID, IA, RI.

Source: December 2025 proposal abstracts.

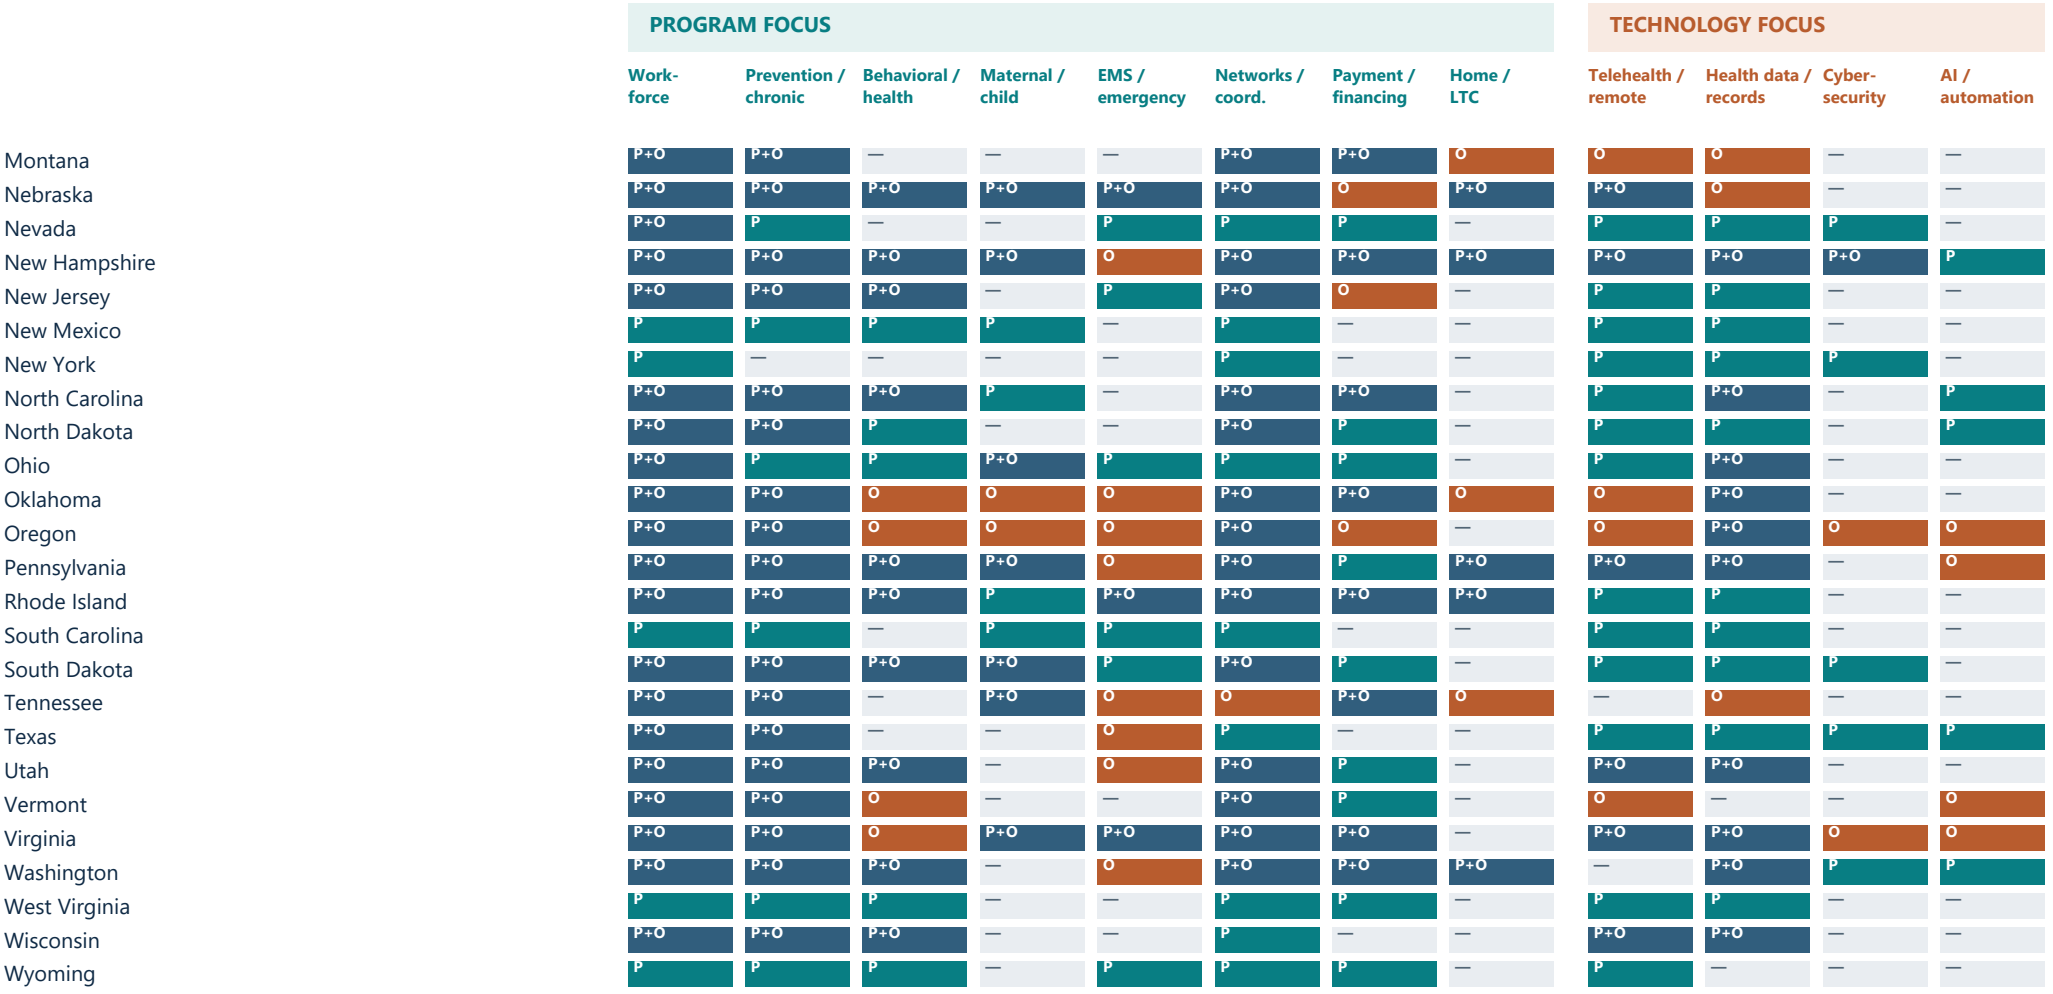

Orange = technology mentioned for this care area. Teal = care area mentioned; no technology mentioned. Gray = care area not mentioned in abstract. Tile positions are approximate.

Which proposed areas have initial obligations?

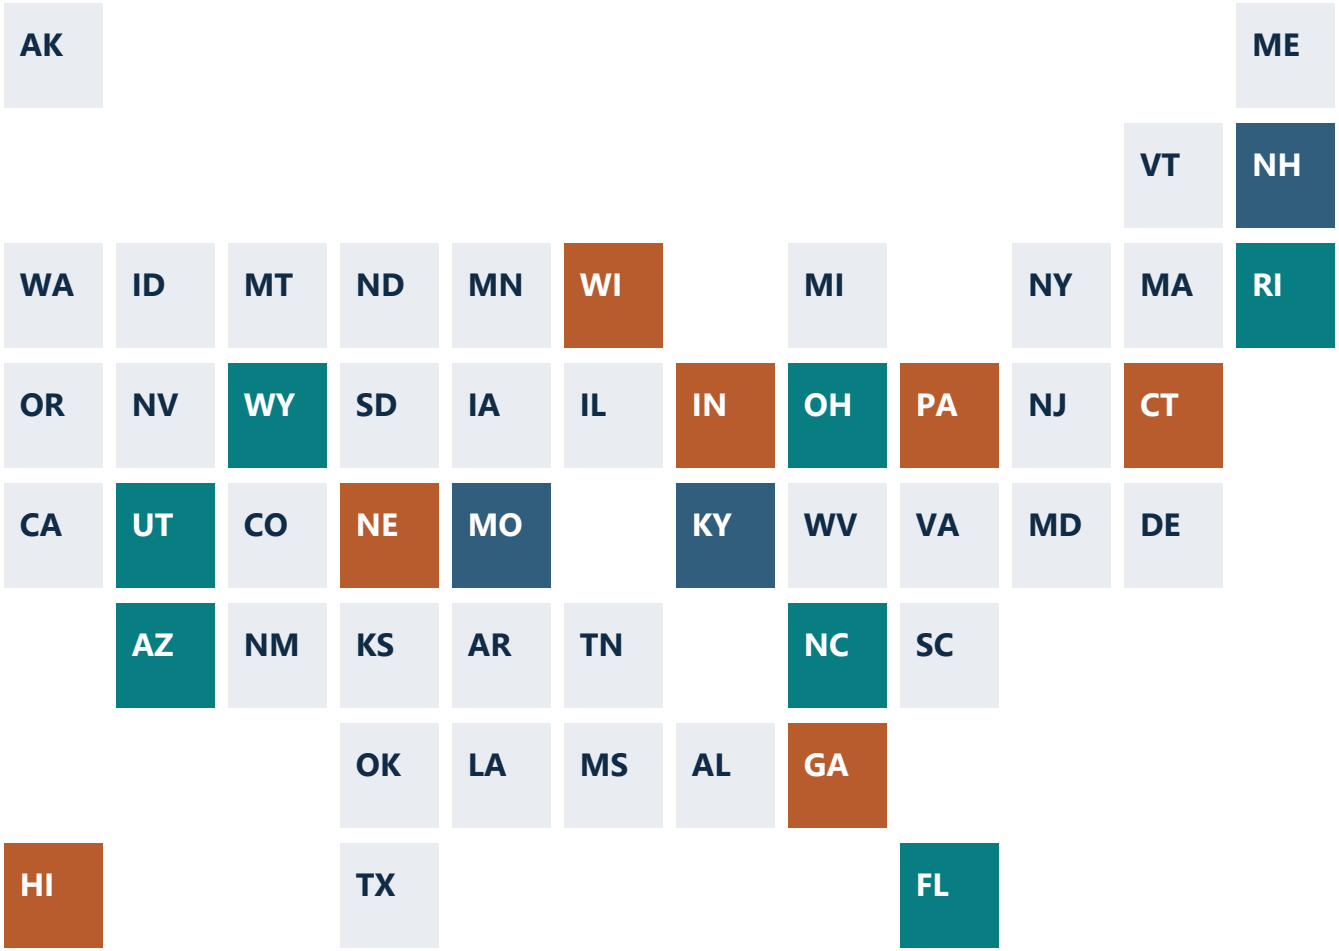

"Proposed only" means the theme was named in the state abstract but not explicit in the July 31, 2026 obligations snapshot; it does not imply cancellation or nonperformance.

Which proposed areas have initial obligations?

"Proposed only" means the theme was named in the state abstract but not explicit in the July 31, 2026 obligations snapshot; it does not imply cancellation or nonperformance.

Behavioral health + technology: proposed ↔ obligations

Linked technology evidence

3 P+O · both reports

7 P · proposed only

7 O · obligation only

33 — · neither report

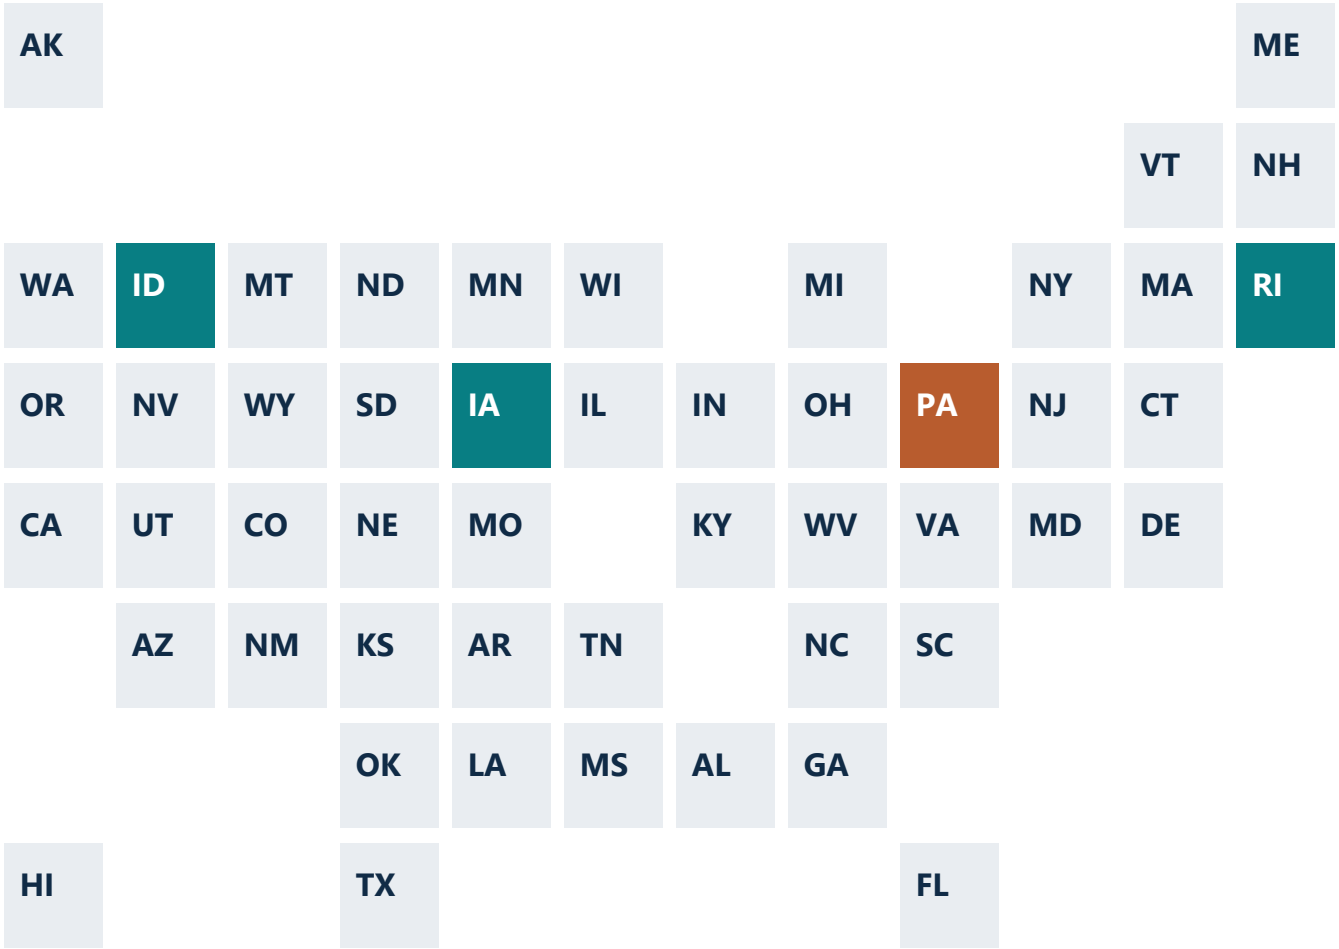

LEGEND

- P+O Both reports
- P Proposed only
- O Obligation evidence only
- — Neither report

Obligation evidence requires the care area and named technology in one positive-dollar line-item/category segment, or a care-specific initiative title. Broader co-occurrence does not qualify.

These cells reconcile explicit care-area + technology linkage—not general care-area or technology mentions. Neither source establishes implementation.

Home / long-term care + technology: proposed ↔ obligations

Linked technology evidence

0 P+O · both reports

3 P · proposed only

1 O · obligation only

46 — · neither report
