Obligations are reported commitments—not expenditures, outlays, implementation, or outcomes.

REPORTED FUNDING CATEGORIES

Reported obligations by category

94.8% has normalized category detail. Values below are rounded; audit files retain cents.

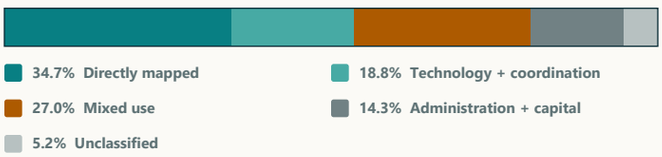

[1] State total less normalized category detail. It remains visible and is not allocated by inference.

ANALYST CROSSWALK TO ATLAS THEMES

Each category maps once

Each dollar appears once in each view; the views are parallel, not additive. Broad uses stay mixed; source gaps stay unclassified.

$650.7M WORKFORCE

$557.9M TECHNOLOGY[1]

$481.5M PREVENTION

$192.6M COORDINATION[2]

$132.6M PAYMENT

$125.0M BEHAVIORAL HEALTH

$1.081B MIXED USE

$573.5M ADMIN + CAPITAL[3]

$206.3M UNCLASSIFIED

[1] Technology stays one broad family. [2] Collaboration is a proxy, not an identity. Together they add 18.8 points beyond 34.7% direct alignment. [3] Analyst grouping of two official categories.

HOW CATEGORIES ARE MAPPED WITHOUT DOUBLE-COUNTING

Preserve reported categories, assign once, and retain uncertainty.

1 KEEP SOURCE CATEGORIES
Retain all 12 reported categories and each state's control total.

2 ASSIGN ONE THEME
Use one primary Atlas theme only when the category supports it.

3 RETAIN UNCERTAINTY
Keep mixed, administration/capital, and unclassified amounts separate.
